☐ Continuation Sheet Attached

Brief Description of Arguments to be Presented:

The claimed invention has three "means" element. The Examiner is applying a single reference with a single element to meet these limitations. The disclosure of Yanase does not link the "single element" to the three recited functions. Also Yanase does not achieve division of an electronic document by applying stored patterns.

An interview was conducted on the above-identified application on _____

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP §713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
